

CALL FOR PAPERS – WCTS 2019

## 1st IFAC Workshop on Control of Transportation Systems

JUNE 30 – JULY 01 HAIFA, ISRAEL

**The 1st IFAC Workshop on Control of Transportation Systems (WCTS 2019) will be held on June 30 – July 1, 2019, at Technion – Israel Institute of Technology, Haifa, Israel.** Haifa is situated in a broad natural bay between the Mediterranean Sea and the Carmel mountain range. The terraced landscape of the city offers a rich variety of breathtaking panoramas. The city has many

museums and cultural centers as well as restored quarters, historic sites, and beautiful beaches. WCTS 2019 will include several sessions, keynote lectures, and social events. The main scope of the WCTS 2019 is the development of automatic control theory for the purpose of redefining and redesigning advanced integrated traffic management systems to improve our cities to become more energy-efficient, sustainable, and livable. With the impending advent of fully autonomous vehicles in the future, their impact on the city traffic is not yet clear, given that current traffic management is limited to conventional vehicles. Autonomous vehicles will introduce a paradigm shift in traffic management. This will include new management structure, goals, and means which might require us to develop new control methods, tools, and schemes.

WCTS 2019 will provide an interesting opportunity for the academic and industrial communities to investigate new ideas, to share innovative solutions, and to discuss future research directions of control in transportation systems.

<b>Paper submission deadline</b>	<b>December 23<sup>rd</sup> 2018</b>
<b>Notification of acceptance</b>	<b>March 25<sup>th</sup> 2019</b>
<b>Final paper submission &amp; early registration deadline</b>	<b>April 30<sup>th</sup> 2019</b>

### Technical topics and areas include (but are not limited to):

- Control of connected and automated vehicles
- Modeling and control of mixed autonomous and conventional traffic
- Large-scale urban traffic management
- Planning and management of public transportation
- Safety and security in future transportation systems
- Vehicle automation and communication systems
- Multimodal transport modeling, monitoring, and control
- Simulation tools and commercial software
- Future automated highway systems
- Ramp metering and speed limit control
- Urban mobility systems
- New technologies for control in transportation
- Energy control in transportation
- Human factors in traffic and transportation control
- Freight transportation
- Rail transportation modeling and control systems
- Maritime transportation planning and control
- Control and scheduling of air transportation
- Modeling and control of road traffic networks

### SUBMISSION DETAILS

Papers must be submitted electronically by December 23, 2018. The paper format must follow IFAC paper submission rules. IFAC templates and guidelines are provided on the IFAC website (<https://www.ifac-control.org/events/author-guide>).

All submissions must be electronically submitted through the PaperPlaza Conference Manuscript Management System (<https://ifac.papercept.net>).

## National Organization Committee

Jack Haddad, Technion (Chair)  
Per-Olof Gutman, Technion (Co-Chair)  
Shai Arogeti, Ben-Gurion University  
Shlomo Bekhor, Technion  
Yoram Shiftan, Technion  
Tomer Toledo, Technion

## IFAC Technical Committee Main-Sponsor

TC 7.4. Transportation Systems

## IFAC Technical Committee Co-Sponsors

TC 7.1. Automotive Control  
TC 7.2. Marine Systems  
TC 7.3. Aerospace  
TC 7.5. Intelligent Autonomous Vehicles

## International Program Committee

## Copyright conditions

All publication material submitted for presentation at an IFAC-sponsored meeting (Congress, Symposium, Conference, Workshop) must be original and hence cannot be already published, nor can it be under review elsewhere. The authors take responsibility for the material that has been submitted. IFAC-sponsored conferences will abide by the highest standard of ethical behavior in the review process as explained on the **Elsevier webpage** (<https://www.elsevier.com/authors/journal-authors/policies-and-ethics>), and the authors will abide by the **IFAC publication ethics guidelines** (<https://www.ifac-control.org/events/organizers-guide/PublicationEthicsGuidelines.pdf>).

Accepted papers that have been presented at an IFAC meeting will be published in the proceedings of the event using the open-access IFAC-PapersOnLine series hosted on **ScienceDirect** (<http://www.sciencedirect.com>). To this end, the author(s) must confer the copyright to IFAC when they submit the final version of the paper through the paper submission process. The author(s) retain the right to use a copy of the paper for personal use, internal institutional use at the author(s)' institution, or scholarly posting at an open web site operated by the author(s) or their institution, limited to noncommercial use. Any other use of the paper requires approval by IFAC.
